

# Seed Libraries

## Community and biodiversity

*Nine out of 10 mouthfuls of food in the world come from plants grown from seeds, but the number of varieties available is becoming smaller and smaller. This lack of diversity in our food crops has huge implications for our planet and communities.*

*This month we welcome the founders of the Lampeter Seed Library to tell us about what they are doing to help preserve biodiversity and access to seeds at a local level.*

**7.00pm, Tuesday 26<sup>th</sup> March**  
**Herb Garden Café**  
**Free entry and refreshments**  
**All welcome! Croeso i bawb!**
